PATENT ASSIGNMENT

WHEREAS, in connection with the consummation of the Asset Purchase Agreement (the "Asset Purchase Agreement") dated as of January 28, 2003, by and between INFOLIBRIA, INC., a Delaware corporation ("Assignor"), and CERTEON, INC., a Delaware corporation ("Assignee"), the Assignor has agreed to transfer all rights in certain Patents and Patent Applications to the Assignee;

WHEREAS, certain exhibits incorporated by reference into the Asset Purchase Agreement contain errors in a list of the patent assets being transferred; and

WHEREAS, Assignor and Assignee wish to amend these errors:

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Assignor does hereby sell, assign and transfer to the Assignee and its successors and assigns, all right, title and interest of the Assignor, including all future-acquired rights and all rights of priority under all United States and foreign patent laws (including, without limitation, the International Convention for the Protection of Industrial Property and all other international conventions or treaties), in the inventions or improvements described in the Patents and Patent Applications listed on Amended Exhibit P and in all Letters Patent of the United States and all foreign countries which may or shall be granted on said inventions, or any parts thereof, or on said applications, or any divisional, continuing, continuing-in part, substitute, reissue or other applications based in whole or in part thereon in the United States and all foreign countries, together with all rights to sue and recover for any past, present or future infringements, damage or injury (and including the right to take over and continue any and all existing suits) to any of the foregoing and collect profits or damages with respect to same, the same to be held and enjoyed hereinafter by the Assignee for its own use and for the use of its successors and assigns. Assignor agrees, on behalf of itself and its executors and administrators, with Assignee and its successor and assigns, but at Assignee's expense and charges, hereafter to execute all applications, amended specifications, deed or other instrument, and to do all acts necessary or proper to secure the grant of Letters Patent in the United States and in all other countries to said Assignee, with specifications and claims in such form as shall be approved by counsel for said Assignee and to vest and confirm in said Assignee, its successors and assigns, the legal title to all such patents.

Assignor does hereby authorize and request the Commissioner of Patents and Trademarks of the United States, and all other appropriate governmental bodies of any foreign country, to issue such Letters Patent as shall be granted upon said Patent Applications, Patents or applications based thereon to said Assignee, its successors and assigns. Assignor hereby covenants that Assignor has not executed and will not execute any agreements inconsistent with this Patent Assignment.

Promptly upon Assignee's written request, Assignor hereby agrees to execute such additional form(s) of assignment for the foregoing Patents and Patent Applications as may be required by the appropriate governmental authority of the United States or any foreign country for recordation of this Assignment. Without limitation, Assignor hereby grants to Assignee the power to insert on this Assignment any further identification of the Patents listed on Exhibit P and described in the Asset Purchase Agreement that may be reasonably necessary in order to record this Patent Assignment for such Patents and Patent Applications.

IN WITNESS WHEREOF, InfoLibria, Inc. has caused this Patent Assignment to be executed in its name by its duly authorized representative this 21st day of May, 2003.
